

Carter & Crawley Company Profile

Carter & Crawley has been providing quality protection and control solutions for power utility and industrial customers since 1967. Our experience includes a variety of projects, industries, processes and challenges. Our team of engineers has years of experience with multiple brands of protective relays, PLC, HMI, MMI SCADA and RTU applications.

Today, Carter & Crawley has representatives throughout North America, in the Middle East, South America and Asia. The headquarters for manufacturing and engineering is in Greenville, South Carolina. We have over 55,000 square feet of manufacturing space and have successfully completed projects of all sizes. Our manufacturing capabilities span from metal fabrication and painting to wiring and testing and continue through installation, testing and commissioning.

Carter & Crawley is certified to the ISO 9001:2000 standards as a manufacturer of electrical control panels. We have the ability to build panels that are UL, CUL or CSA listed for applications requiring certification.

The vision of Carter & Crawley is to provide a quality product on time, under budget while adding value along the entire process. Our team is ready to support the specific needs of your project and process. From Engineering and Design, through Manufacturing and into Installation, we can support you in any and all phases of deliverables.

Carter & Crawley is a wholly owned subsidiary of AZZ Incorporated of Fort Worth Texas. AZZ is a NYSE listed and traded company under the symbol "AZZ". AZZ also owns 6 other Electrical Manufacturing divisions in Texas, Oklahoma, Kansas, Missouri, Mississippi, and Massachusetts. Please visit www.azz.com for further information, or for a copy of the Annual Report.
