
Carter and Crawley, Inc. adds to Estimating Staff

GREENVILLE, SC March 20th, 2009 - Carter and Crawley, Inc. announced today the addition of an Estimating Manager and promotion within the estimating department, to support their growing power and control panel business.

Effective immediately, David Garrett assumes the role of Estimating Manager responsible for all quotations at their Greenville headquarters, while Kenny Belk has been promoted from Sales Assistant to Estimator.

David Garrett has over 16 years experience in electrical projects and project estimating, specifically with switchgear, motor control centers and installation procedures. A key customer support contact, David will also implement quality process and continuous improvement strategies.

As Estimator, Kenny Belk's role will be to provide timely and accurate estimates of Carter & Crawley's products and services. Kenny has 11 years of hands-on experience in the industry including wiring, testing and the reading and interpretation of electrical drawings.

A division of AZZ, Inc. (www.azz.com), Carter and Crawley, Inc. produces state-of-the art electrical relay and control panels for alternative energy, smart grid infrastructure, utility and industrial markets.
